

Dearest Friends;

What is to be said can only be heard through your heart. Please try to listen from that part. For a long time we have been part of a criminal process which has hurt many individuals. Some of these individuals have been sacrificed because we have chosen not to listen to our conscience.

Robert has over the years pursued and sodomized young men. He has used his position to seduce these young men with the promise of immortality. His actions are simply that of a degenerating being no matter how refined. We in our blindness have allowed some dear individuals to be defiled and damaged by his appetites. Our omission, and it is one in the strictist sense, is allowing it to continue.

Some of these young men have become seriously psychologically impaired through this process. Yet we go on minimizing it because it is safer not to know. These acts are a violation of Robert's position. If we excuse this by saying that it is his privilege or his private weakness we are both accomplice and victim. If it is allowed to continue, the karma which we attract, will bring down our school and leave very heavy stains in our being. It is simply not worth the contamination wrought.

There may be much discomfort which comes from these words. But please try to think of the anguish some of these young men have been subjected to in the name of evolution; and ask your self whether you would knowingly as a higher being conduct your life in this way. Can you truly accept that one can enter higher worlds by such actions? Would you wish to enter these worlds by such acts? This reasoning leads to one final not so profound conclusion; the Emperor is indeed very naked and we sadly provide his mantle.

Robert is a victim also. The highest that one can extend him is compassion and help. If one becomes angered at him or oneself or me the cycle continues. He is and will be confused and hurt by these actions. Yet firmness and equanimity are what is needed. We do great harm to our school and our being should we choose not to act.

We have talked and preached an ethic of love and acting for the higher right. Now is the time to be the words. It would also be a solemn and humane act for us to help the young men that have been hurt and damaged by Robert. It would be a proper legacy to pass on to the next generation.

If you find in your solitude that fear and or the wish to defend has kept you from hearing what has been said you lose a very dear friend. You lose yourself!

In friendship,

Samuel L. Sanders
